Mar 29, 16:01	Reclamation District 1000 ... We are requesting bids for the Natomas Basin Vegetation Maintenance Project Phase 4. Bid details are here: http://ow.ly/XCRe50luefH Contracts and Specifications are available for purchase at the District Office. All bids are due by 1 pm on April 15th.	2	0	0
Mar 25, 16:01	Reclamation District 1000 ... Fun Fact Friday! Did you know that Natomas is primarily made up of farm land? As of 2021, 59% of land use within the basin is considered agriculture. With California contributing 40% of all food production within the US, our work in flood prevention protects many of the farmers that feed...	5	0	4
Mar 22, 16:01	Reclamation District 1000 ... Do you know the difference between a 100-year storm vs a 100-year flood? Mead & Hunt, our partner in flood control design, engineering, and planning, provides a great summary on these commonly used flood terms. Read the article here: http://ow.ly/wREJ50lkSA	1	0	1
Mar 17, 18:00	Reclamation District 1000 ... Flood Control Partnerships for a Safer Sacramento. Learn how the U.S. Army Corps of Engineers, Sacramento District works with local agencies, including ours, to mitigate flood risks within Natomas and the Greater Sacramento Region.	2	0	1
Mar 16, 16:58	Reclamation District 1000 ... A \$1.5 trillion spending bill was signed into law yesterday with significant earmarks for the Sacramento Region flood control projects. Read more about funding coming to the Natomas Basin in this article by the Sacramento Bee.	0	1	0
Mar 15, 20:45	Reclamation District 1000 ... (Post with no description)	0	0	0
Mar 12, 00:25	Reclamation District 1000 ... Here is a behind the scene image of Pumping Plant 4 reconstruction before completion of the backfill process. Once completed, ¾ of the structure will have been buried. Learn more about Pumping Plant 4 and our facilities here: http://ow.ly/AxU450lhF2x	3	1	1
Mar 10, 17:50	Reclamation District 1000 ... How do we prepare for floods even when it's not raining? We maintain the levees by mowing and monitoring for potential issues. We regularly inspect facilities, and participate in annual flood prevention training. We do all of this for you. Learn more here: http://ow.ly/sOTU50lfA4M	3	0	1
Mar 02, 21:15	Reclamation District 1000 ... Join us online this Friday at 8 am for our monthly Board Meeting. Meeting materials and login information can be found on our website here: http://ow.ly/sKV650lfoC	0	0	1

reclamationdis trict_1000 Jan 06, 20:54	 Our crews were joined by Sacramento County, the City of Sacramento, and Forensic Clean at Soppip Road & Del Paso Road recently for a joint community clean up effort and removed 80,000 lbs of debris. Check out these before and after photos from their efforts.	23	7
reclamationdis trict_1000 Feb 02, 00:15	 Please welcome our newest team member, John Chilton! We're excited to have him join the RD1000 crew in protecting and serving the Natomas Community. #Natomas #FloodReady	7	0
reclamationdis trict_1000 Jan 10, 19:05	 Plant 4, our most northern pumping plant, is being demolished and rebuilt as part of the Natomas Levee Improvement Plan. This will have a significant impact on the northern end of the District. With Plant 4 inoperable during flood season, Plant 2, Plant 6, Plant 8 and Plant 1B will receive all the drainage water that Plant 4 would normally discharge.	7	1
reclamationdis trict_1000 Mar 25, 16:01	 Fun Fact Friday! Did you know that Natomas is primarily made up of farm land? As of 2021, 59% of land use within the basin is considered agriculture. With California contributing 40% of all food production within the US, our work in flood prevention protects many of the farmers that feed America.	7	1
reclamationdis trict_1000 Mar 01, 21:15	 Plant 4 reconstruction in Sutter County has resumed with completion expected later this year. This project is part of the Natomas Levee Improvement Project. Learn more about levee improvements on our website. #Natomas #Levees #Reclamation	6	0
