Subject: RE: RD 1000 - 2022/2023 Assessment Report (For Trustee Election Purpose)

Kevin:

Per the Water Code, when the percentage of land dedicated to agricultural purposes under your assessment is equal to or greater than 35%, the Board shall designate four seats as "land assessment seats" and three seats as "parcel seats." (WC 50780.18). That is your current division across Trustees.

Your assessment roll reflects that 59% of land is currently dedicated to agricultural purposes (p. 14), so the threshold to shift seat designations has not been triggered for this year's election. The Board should still make its formal finding that the percentage of agricultural land assessed falls within the range identified in Water Code 50780.18(b), and therefore the current 4-assessment-seat/3-parcel-seat structure will stay in place.

Subject: RD 1000 - 2022/2023 Assessment Report (For Trustee Election Purpose)

Rebecca,

See page 14 of the attached and let me know if we need to make a change. If no changes, I will inform the Urbanization Chair and ask if she wants to conduct a Committee Meeting or just refer to the Board.

Thank you,

Kevin L. King
General Manager

Reclamation District 1000
