

Chris Burns

Candidate statement:

Trustee Chris Burns pushed the district to take action on the homeless camps that were digging into the levees and threatening their structural integrity. He also lobbied for new state laws to help the district remove these camps that have proliferated in recent years. Chris thinks the district should act in a fiscally sound manner and will always advocate for ways to keep district operating costs low. Chris believes that new property tax assessments should be the last option for the district and only then, any new taxes should be solely dedicated to operations and maintenance of district facilities.
